## 50 State Quarters Program

In 1999, the United States Mint began to issue new commemorative quarters. The front of the quarter still has George Washington but the bald eagle that is normally on the back side of the quarter is gone until 2009 and has been replaced by 50 different images – one from each state.

Each year from 1999 until 2009, 5 new quarters are issued in the order the states joined the union. Florida, the 27th state of the United States, introduced its commemorative quarter in 2004. The design features a Spanish galleon and the Space Shuttle and links the state with the phrase "Gateway to Discovery." Why the Spanish Galleon and the Space Shuttle? The state of Florida was first explored by the Spanish explorer, Ponce de Leon, while he searched for the legendary Fountain of Youth. Also, the oldest permanent settlement in the U.S., St. Augustine, Florida, was founded by the Spanish.

The Space Shuttle is represented on the quarter because most U.S. space missions blast off from the Kennedy Space Center in Cape Canaveral, FL. So from the New World to the new worlds in space, Florida is truly the Gateway to Discovery.

Start collecting these commemorative coins today and see if you can collect all 50!
